

CBD-infused No Bake Peanut Butter* Dog Treats

Yields approximately 14 treats, depending on size.

Ingredients:

- ½ cup of natural peanut butter
- 1 cup pumpkin puree (not pumpkin pie filling)
- ¼ cup hemp milk (or other milk substitute)
- 1 tablespoon raw honey**
- 2 cups rolled oats
- UltraCell™ Raw or UltraCell™ Pet CBD Oil*** (refer to table)

Directions:

1. Using an electric mixer, combine the pumpkin puree, peanut butter*, honey** UltraCell™ Raw or Pet CBD*** oil, and hemp milk on medium-high until thoroughly mixed.
2. Add in your rolled oats, checking consistency as you go - you may add more or use less than the recommended 2 cups based on your (and your dog's preference). The CBD dog treats should be like the consistency of cookie dough, pliable but easy to roll into small, firm balls.
3. Using a small ice cream scoop, scoop the treat mixture into equal size treats on your parchment paper. Cover the dog treats in additional oats, if desired, firmly pressing to coat each treat.
4. Treats are ready to feed your furry friend right away, or place in the fridge to harden/store.
5. Treats will keep up to one week in the fridge.

ZILIS™ ULTRACELL™ RAW & ULTRACELL™ PET CBD OIL SERVING SIZE TABLE

Pet	UltraCell™ Raw	UltraCell™ Pet
Cats	1 drop or less per 20lbs of body weight	1 drop or less per 5lbs of body weight
Dogs	1 drop or less per 20lbs of body weight	1 drop or less per 5lbs of body weight
Horses	1-3 drops (500lbs or less)	
	3-5 drops (500lbs-1,000lbs)	
	5-10 drops (1,000-1,500lbs)	

* Make sure to choose a peanut butter without xylitol, which is highly toxic to dogs and can occasionally be found in some sugar-free peanut butters.

** Verify your raw honey is actual honey by checking the label. Real honey only contains one ingredient—honey.

*** UltraCell™ Pet is not formulated for human consumption.
